Quality & Safety

From the reception to the practice, your space can be completely customized

BARRISOL® is a patented system with a perfect finish for renovating and decorating any space. As a result of exposure to heat, tailor-made BARRISOL® sheets are stretched from wall to wall, on BARRISOL® profiles.

BARRISOL® offers a range of exclusive solutions for renovating and decorating walls and ceilings:

- installed in less than a day
- no waste or dust is produced
- available in a wide range of more than 230 colours and finishes
- printable
- acoustic solutions

A space that reflects your image

Patterns, photographs and artwork are printable on BARRISOL®'s range of 230 colours and finishes. Combined with specific lighting solutions (LEDs or fibre optics), printed sheets are enhanced and elegant.

Examples of customization:

BARRISOL® Lumière® frame integrated in a glossy ceiling

Printed BARRISOL® ceiling with sky pattern

Printed backlit BARRISOL® ceiling with sky pattern and trees

Acoustic solutions

BARRISOL® Acoustics® is an absorbing technology that helps ensure an exceptional listening comfort.

Acoustic absorption reduces the intensity of the sound waves as they reflect within a room. The wave that emanates from a sound source is partially absorbed by the BARRISOL® sheet, thereby reducing reverberation and improving sound quality and intelligibility.

BARRISOL® Acoustics® is an exclusive technology based on micro-perforations that absorbs unwanted resonances.

Quality, Safety & Ecology

BARRISOL® sheets comply with EC standards and are manufactured with plasticisers guaranteed without phthalate, cadmium, mercury and arsenic.

BARRISOL® sheets® are classified in compliance with European and International standards (BS1-D0, BS2-D0, BS3-D0). All fire, smoke and toxicity tests ensure that BARRISOL® products are suitable to be used in public places, including medical facilities.

BARRISOL® STRETCH CEILING IS LABELLED A+ (THE HIGHEST SCORE) IN COMPLIANCE WITH THE LEGISLATION IN FORCE AS REGARDS INDOOR AIR QUALITY.

HIGH QUALITY MATERIALS AND RESPECT FOR THE ENVIRONMENT

Respect for the environment is an integral part of every step of a specific production process that requires 20 times less raw materials than other types of ceilings. With this in mind, BARRISOL® offers a range of sheets totally produced from recycled sheets, BARRISOL® Les Recyclés®.

What is more, installing a BARRISOL® ceiling or wall allows for the preservation of what is already in place and does not generate any additional waste.

Barrisol® Solutions Lumière® & Lumière Color®

Light and Colour for the well-being of your patients.

Offer your patients the comfort they expect. BARRISOL® Lumière® and BARRISOL® Lumière Colour® provide a relaxation area with the optimal use of light and colour.

BARRISOL® provides tailored solutions to light the spaces according to your individual needs and to create a resolutely modern decor. Wells of light, light fixtures and lighting paths are but some of the unlimited possibilities BARRISOL® sheets and systems offer.

BARRISOL®

WORLD LEADER OF STRETCHED CEILING

BARRISOL® COMMITMENTS

Safety and quality are BARRISOL® top priorities, in compliance with applicable laws and standards.

BARRISOL® SHEETS:

- meet all EC standards requirements (certified by an independent laboratory)
- are manufactured with phthalate-free plasticisers
- are guaranteed cadmium, mercury and arsenic-free

BARRISOL® PRODUCTS ARE CLASSIFIED IN COMPLIANCE WITH EUROPEAN AND INTERNATIONAL STANDARDS (M1, BS1-D0, BS2-D0, BS3-D0) FOR ALL PUBLIC PLACES.

BARRISOL® AND AIR QUALITY

BARRISOL stretch ceilings® are labelled A+ (the highest score) in compliance with the legislation in force as regards indoor air quality.
